Critical Date Information

Divulgence Notice

Protection of foreign and domestic patent rights is increasingly significant to the United States before there is any divulgence of a corresponding invention on a non-confidential basis, foreign patent rights will be preserved, but if the patent application is filed after a divulgence, foreign patent rights will be lost even though a United States patent may still be obtainable if the application is filed within a year of the divulgence. Accordingly, we ask that you answer the following questions. If the answer is Yes to any questions, please provide details in the "Critical Dates Comment" block below the questions. Please advise the intellectual property attorney if the answer to any question changes before filing of the patent application.

Estimated date invention reduced to practice (mm/dd/yyyy):

Invention used in product previously, presently, or in the future?

If so, Product Name?

Has a product, including the invention or made with the invention, been sold or offered for sale??

If so, estimate when (mm/dd/yyyy)?

If the invention pertains to a process, have any steps been taken to employ the process commercially (e.g. for product production)?

Title: Interactive Electronic Technical Manual Layout	
<p>This is to acknowledge receipt of your invention disclosure. Your invention disclosure will be evaluated to determine whether or not action should be taken to protect your invention. The evaluation includes an initial economic and technical evaluation and possibly a prior art search. You should receive an email from your Technical Review person or from IPLaw, within four to six weeks indicating whether your disclosure will be investigated for possible patent protection. The evaluation will either be rated as Close, Publish, Search or Trade Secret.</p> <p>If the decision is to publish your invention disclosure, you will need to have it published in an outside journal for ex: IEEE. If you have any questions on publication please give your IPLaw Dept. a call</p> <p>In all future communications, please refer to the invention disclosure number and attorney assigned above. Thank you for submitting an invention disclosure and for your interest in protecting intellectual property.</p>
